Performance Without Compromise®

HYGIENE ROOM PACKAGE

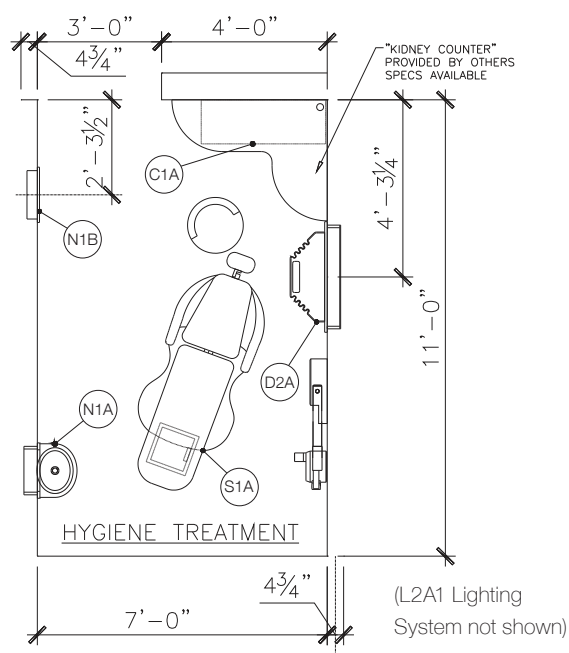

The New Standard in Hygiene Production

The compact InWall all-in-one delivery platform at the core of our Hygiene Package provides the same enhanced production found in all our Workstations.

With our EP 330 Patient Chair (featuring heat and massage), your Hygiene rooms will be attractive, comfortable spaces that will guarantee your patients return time and time again.

- High-performance, articulating delivery platform
- Space Saving InWall construction
- Material consolidation for improved ergonomics

Performance without Compromise.®

We all know Hygiene drives a practice; it's the portal through which most new patients enter, and the vehicle that keeps them long-term. **To sustain growth, a practice CANNOT limit capacity in this crucial area.**

Is your hygiene set-up equal to the demands placed on it? **Ours is – and then some!**

Our 32" Hygiene InWall delivery platform features an articulating, 3-point swivel for left/right convertibility and reduced range-of-motion which is the hallmark of the EP Workstations. The concealed hydraulic pull-downs in our Resupply allow for exceptional storage capacity with minimal visual impact. Space-saving InWall Storage and Comfort accommodate both the patient experience and the demands of the busy clinician. The EP 330 Patient Chair brings the package together and is so comfortable your patients will ask where they can get one of their own!

Hygiene has a huge impact on the health of your practice; but it doesn't have to have an equally large impact on your Floorplan. **With the EP Hygiene Room, you don't need to sacrifice Productivity when space is at a premium.**

32" Hygiene InWall™ Workstation (items D2A1 & D2A4)

Standard Features Include:

- 3-point Swivel for 2-hand/4-hand convertibility
- 1 High Speed Air
- 1 Low Speed Air
- 1 A/W Syringe
- 1 HVE
- 1 Saliva Ejector
- Parkell Manual Scaler - or - Parkell Turbo Sensor Scaler
- 1 EP Consumable Bin
- 1 EP Med-waste Bin
- 8 Milled Hand-piece Holders
- 2-Liter Self-contained water supply
- Auxiliary Air/Water Ports
- Bib/Glove/Product storage (D2A4)

Open storage is recommended in Central Resupply, but is less desired in patient spaces. The Hygiene Resupply eliminates the under-storage of our standard unit and features doors for a patient-friendly appearance.
