30" Resupply with Hydraulic PullDown (Item C1A1)

Double your storage space...
while improving **accessibility,**
visibility and **safety.**

Standard Features

- Stainless steel Hydraulic PullDown Shelving provides easy access to materials.
- Maximizes use of vertical storage space without sacrificing safety.
- Open Shelving allows visual inventory – know at a glance what you have and where it is.
- Partition Storage under unit allows for a quick and customizable arrangement of materials.
- Hygiene version with doors available (see C1A2 below)

RESUPPLY CONFIGURATION

Cabinet Color Selections:

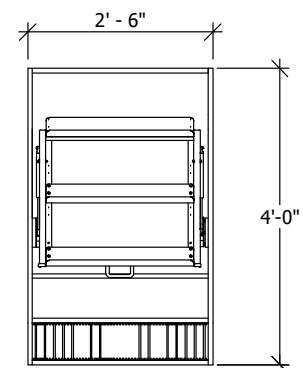

- ☐ Available in standard color choices.
- ☐ - or - Upgrade to woodgrain finish. (Standard EP woodgrain finishes)

Cabinet Doors:

- ☐ No Doors (this is the standard configuration).
- ☐ - or - Include doors

Triple PullDown Configuration (item C1D1):

- ☐ The Triple PullDown (shown right) features three tiers of PullDown Shelving, and maximizes use of space in Resupply Areas with taller ceiling heights.

Triple PullDown (C1D1)

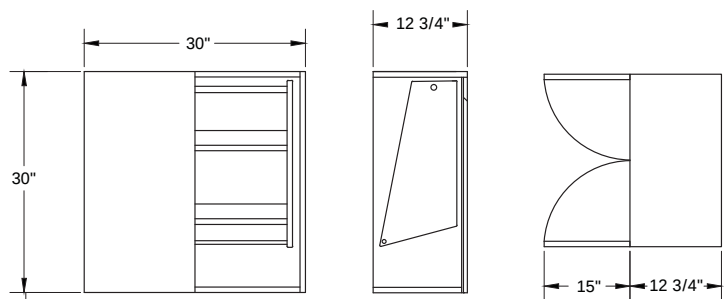

HYGIENE CONFIGURATION (item C1A2)

While open storage is recommended in central resupply areas, it is less desired in patient-oriented spaces.

To address this, we offer the Hygiene Resupply. Intended for use in hygiene rooms, this version eliminates the open, partitioned under-storage and is only sold with doors.

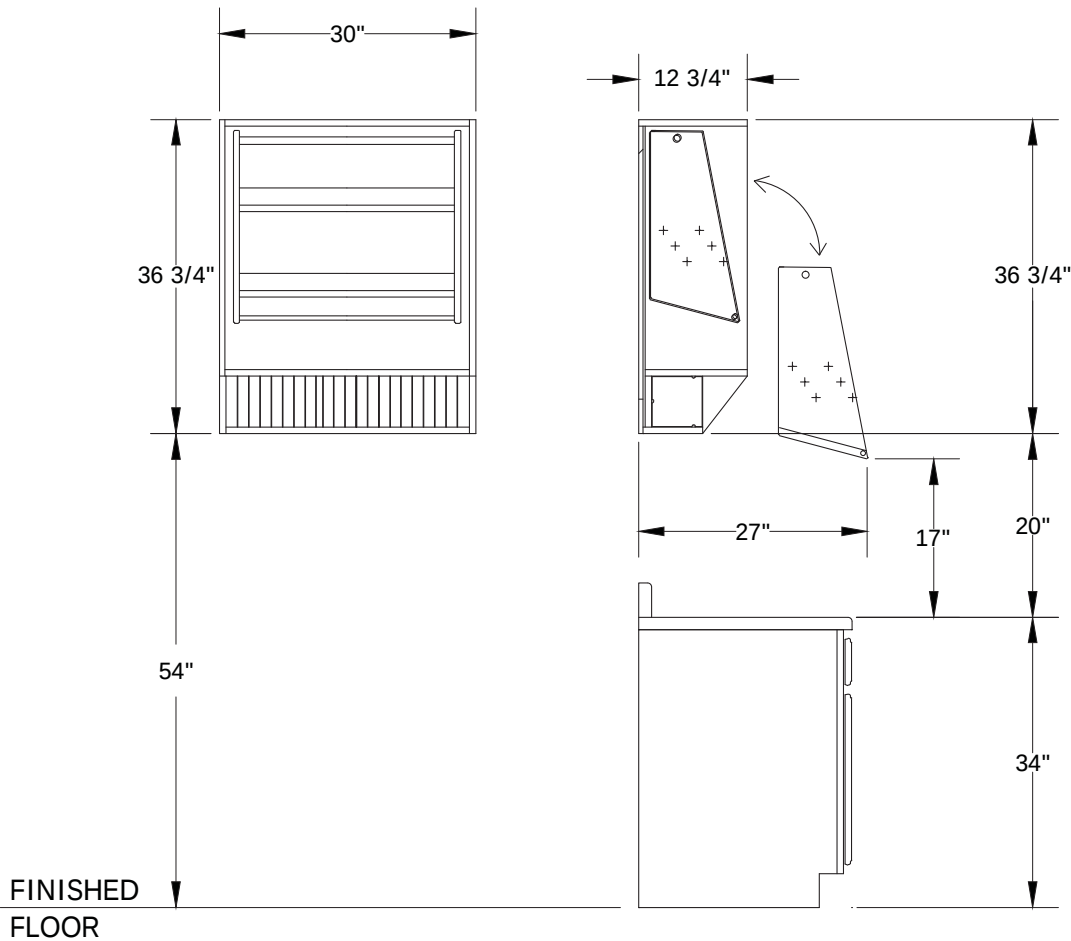

Cabinet Color Selections:

- ☐ Available in standard color choices.
- ☐ - or - Upgrade to woodgrain finish.
(Standard EP woodgrain finishes)

Dimensions

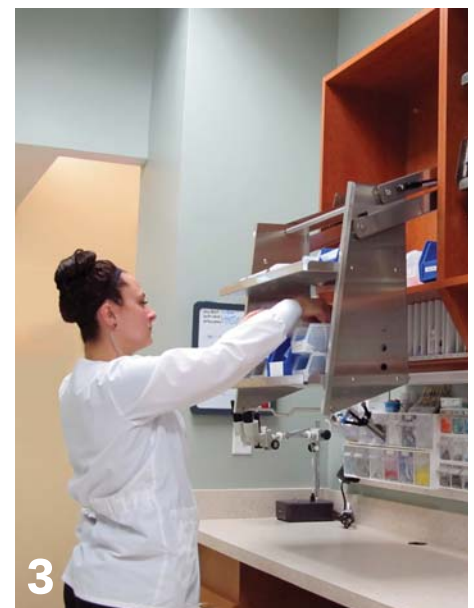

The 30" Resupply with Hydraulic PullDown shown here is the "Double" version (item C1A1). It features two stainless steel shelves.

For Resupply areas with taller ceiling heights, we recommend the Triple PullDown (item C1D1). This unit features three PullDown Shelves to maximize the safe and easy access of your Resupply's available vertical storage space.

The Triple PullDown has a recommended mounting height of 8'-6" from the top of the cabinet to the finished floor.

Ergonomic Efficiency

Bachman Lab Case Triple PullDown (Item C1D5)

The Bachman Lab Case Triple PullDown includes 25 Alphabet Dividers and 60 Pharmacy Bags (mixed medium and large).

Tired of hunting for lab cases? Find what you're looking for **as easy as A, B, C!**

The Bachman Lab Case PullDown combines our **Hydraulic PullDown** design with **simple and effective alphabetic organization**. This makes case retrieval **easy, fast, and safe** for your team.

By maximizing vertical space, the Bachman Lab Case Triple PullDown provides storage for **two-to-three times more cases** than standard shelves. With a capacity of 45-60 cases, this cabinet can support a typical 10 op general practice.

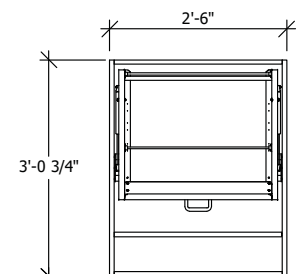

Standard Features

- Hydraulic PullDown Rack system provides easy access to case bags.
- Maximizes use of vertical storage space without sacrificing safety.
- Open storage and Alphabet Dividers allow visual inventory – locate cases at glance!
- Lower Shelf for full case Invisalign or denture storage
- Pharmacy Bags - 30 ea. of 7.5" x 10" and 9 x 12"
- Self-adhesive see-through Card Pockets (for bags)
- 25 Alphabet Dividers (with labels)

DOUBLE PULLDOWN CONFIGURATION (Item C1A5)

The Bachman Lab Case PullDown is available in a double-tier configuration (shown right) with a suggested mounting height of 7'-6 3/4". This accommodates smaller offices or lab spaces with limited ceiling heights.

The Bachman Lab Case Double PullDown includes 40 Pharmacy Bags, Card Pockets, and 25 Alphabet Dividers (with labels).

Bachman Lab Case Double PullDown

COLOR CHOICES

Cabinet Color Selections (either configuration):

- ☐ Available in standard color choices.
- ☐ - or - Upgrade to woodgrain finish.
(Standard EP woodgrain finishes)

Ergonomic Efficiency

Because nearly 20% of workplace fall injuries involve ladders or step stools, every instance where a team member must climb to retrieve supplies represents a preventable risk.

In dental practices—where these actions occur dozens of times per day—poor storage design quietly compounds both injury exposure and lost productivity.

Hydraulic PullDowns bring cases down to a safely accessible height, drastically reducing the chance of injury.

AkroBin® Lab Case PullDown (Item C1D7)

Shown with a variety of hanging storage bins ranging from 11" to 4". (Bins purchased separately.)

The hanger lips on the three tiers of AkroBin® Lab Case PullDown Racks are designed to accept most commonly available storage bins (AkroBin®, Uline etc.) The Racks are about 25" wide and spaced about 6 3/4" apart. This accommodates a wide variety of bin sizes. Most manufactures include label slots for quick and easy identification of each bin.

Oversize case storage made easy.

Whether you're **organizing work-in-progress** cases through their stages, or your office handles **a high number of prosthodontics**, the AkroBin® Lab Case PullDown handles large-case management more efficiently, safely and effectively.

Customize your needs with a wide range of open bin sizes, available in clear, white or color-coded to enhance your quick visualization systems.

Three Racks designed to securely hold common storage bins, plus additional flat-storage, **maximizes vertical storage space** in your lab.

Standard Features

- Hydraulic PullDown Rack system provides easy access to cases, while securely holding a variety of AkroBin® sizes.
- Maximizes use of vertical storage space with three tiers of Bin Racks and one flat-storage PullDown Shelf.
- Lower Shelf for additional storage.

COLOR CHOICES

Cabinet Color Selections:

- ☐ Available in standard color choices.
- ☐ - or - Upgrade to woodgrain finish.
(Standard EP woodgrain finishes)

Ergonomic Efficiency

AkroBins® (and similar products from other sources) are available in a wide range of color and size options.

This allows you to customize the PullDown to the specific needs of your practice, including color-coded workflows.

No matter how you organize your storage, the open bins and smooth PullDown mechanics make finding—and retrieving—your oversize cases safe, easy and fast.
